By submitting this form, I acknowledge that I have signed it.

___ **I have read and agree to abide by the rules and expectations.**

How to complete and submit your application:

The form we have provided is a fillable PDF but you need to download it first. Once you have clicked on the form link from the website, you will find the PDF on the bottom left of your laptop's screen. Click on that directly and it will open so that you can type in your information.

Please type in all of your information. Note: you will also need to E-transfer your application fee to be able to fill in the confirmation number from the transaction.

Now save the application as a file. Select the Save As icon (a tiny file folder with a pencil) in the upper right corner. A box will appear. You will need to save the file to your computer so that you can attach it to an email.

Next, you need to email the completed application form as an attachment. You also need to attach the required Jpeg's (photos) requested in the application. We prefer that you send all of your information in the same email to avoid any mix-ups and to streamline the process.
